

ARJITH V S

STUDENT

CAREER OBJECTIVE

Detail-oriented and creative B.Sc. Computer Science student with a strong foundation in programming, multimedia tools, and system design. Seeking an opportunity to apply technical and design skills in a challenging professional environment that encourages continuous learning and innovation.

WORK EXPERIENCE

1. Automatic Irrigation System

- Developed an automated irrigation system using sensors and controllers to efficiently manage water supply for plants, minimizing manual work and water usage.

2. Efficient Parking Reservation System (App-Based)

- Built a mobile app for real-time parking space booking with integrated payment systems, live availability tracking, and automated confirmations—resulting in a 30% increase in parking space utilization.

3. Freelance Projects

- Designed engaging thumbnails for YouTube channels
- Edited promotional and content videos with a cinematic approach
- Collaborated with small creators and clients on content branding

Strengths

- Fast learner and highly adaptable
- Strong visual and creative sense
- Excellent communication and teamwork skills
- Passionate about tech and design integration
